

Preliminary Amendment
USSN 10/562,837

REMARKS

The amendments to the specification are largely editorial. The only exception is the addition of Tables 1 and 2 which were present in the priority document but inadvertently omitted from the U.S. filing. A copy of the original French priority application is already of record. A translation of the entire priority document is not believe necessary since it is self-evident from the priority application where the Tables are found, but a translation of the complete priority document will be submitted if the Office believes it necessary.

Entry and consideration of this Amendment are respectfully requested.

Respectfully submitted,
